

For my main two Doodles
Henry and Stella

Welcome to Doodle's Land of Play & Shenanigans

Once upon a time there was an artist who put out an invitation to the community to be Doodled—to be transformed into one of his signature characters.

This invitation was met with great interest from near and far sending the artist into a whirlwind adventure of art and illustration.

Nearly 150 illustrations were created. Each one was inspired by the hobbies and memories of the artist's community. These Doodles were inspired by you—can you find each one hidden in Doodle's Land of Play & Shenanigans?

Hope you all enjoy the search and...

Thank you all
for the support,

Byron Snyder
"the artist"

Find them all

- Hope / Vince enjoy martinis and plumerias
- Erin's doodle Logan loves baseball and drums

- Joan is an animal lover
- Jen loves photography and dogs
- Roy loves surfing and the uke
- Amy enjoys being a math teacher

This project was inspired by the illustration titled 'Together We Play'

'Together We Play' represents friendship, inclusiveness and the early discovery of one's passion—the experiences that define the people we are today. Sometimes we need a little help remembering those life-changing moments. Doodle is that reminder.
